

## Frequently Asked Questions: Procedural Dermatology

Question	Answer
<b>Duty Hours</b>	
What qualifies as “key” in terms of fellows’ roles in caring for referred patients?  <i>[Program Requirement: VI.F]</i>	Key involvement for fellows includes working with physicians in related disciplines to perform comprehensive medical work-ups and problem-specific physical examinations, to synthesize differential diagnoses, to prioritize relevant treatment options, to perform and interpret appropriate diagnostic tests, and to monitor patients’ responses to therapy. In addition, fellows must coordinate these activities with clinical staff members using effective leadership and communication skills.
